

TRUE SUB-SPECIALIST REPORTING

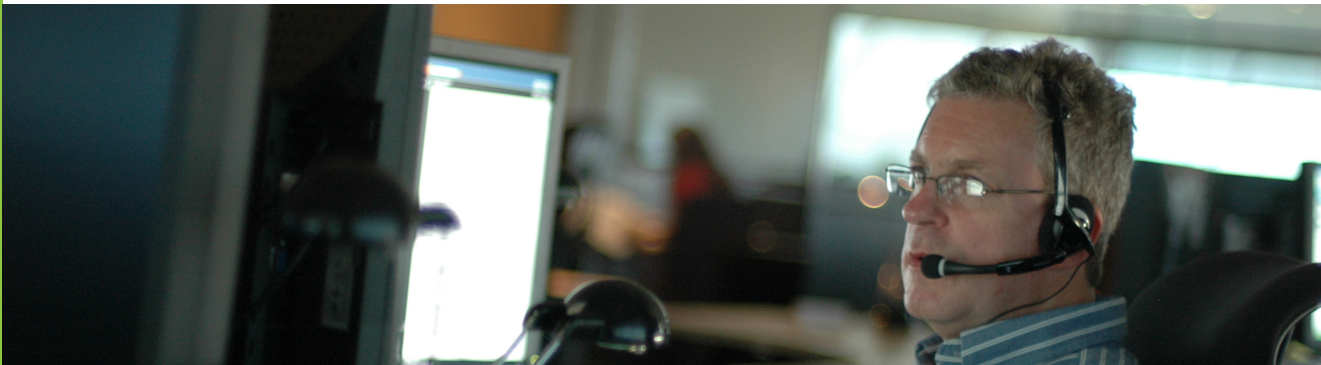

TMC don't just say 'sub-specialist reporting' - we mean it!

Sub-specialist reporting was our founding principle 11 years ago, and has continued to evolve through the years into what we now call 'True Sub-Specialist Reporting'.

TMC True Sub-Specialist Reporting is made possible thanks to:

- Market leading technology
- Full-time sub-specialist medical management
- Full-time case management
- RIS-RIS integration

True Sub-Specialist Reporting means cases are **always allocated to the most skilled and experienced radiologist**, based not just on body areas and modalities, but also special interests and 'super sub-specialties' such as HRCT.

EXCEED THE RCR RULES FOR PEER REVIEW

Did you know that the RCR has very recently issued new guidelines regarding radiologist peer-review?

TMC's bespoke radiology system OPTEMIS incorporates unparalleled peer-review and second reading capabilities.

TMC conducts **5% prospective peer-review** per annum - in addition to our retrospective and external audits.

INDEPENDENTLY EXTERNALLY AUDITED

TMC is the **UK's only teleradiology company to employ independent external auditors**, ensuring the greatest quality assurance on the market.

2% of TMC's elective cases are independently externally audited per year - in addition to our prospective and retrospective peer-review audits.

THE TMC ELECTIVE ADVANTAGE

UK'S MOST EXPERIENCED PROVIDER

TMC have reported in excess of 1 million cases into the NHS over 11 years, earning a market leading reputation for reliability, first-class quality and outstanding service.

TRUE SUB-SPECIALIST REPORTING

For greater diagnostic detail and accuracy.

QUICK AND EASY IMPLEMENTATION

TMC's implementation team works directly with your department to ensure smooth, easy implementation - so you can be up and running in as little as a week.

COMMUNICATE DIRECTLY WITH OUR RADIOLOGISTS

We provide a 'comms desk' during UK business hours, where exclusively assigned sub-specialist radiologists are available to consult and review your cases and reports in real-time.

FAST TURNAROUND TIME

TMC offer a range of turnaround time alternatives to suit individual Trust requirements.

TMC OPTEMIS™ RIS

Our software development team has built a unique, world-class radiology management system specifically designed for sub-specialty case allocation and advanced teleradiology workflow.

IMAGE PULLING TECHNOLOGY

TMC IPS™ Technology saves valuable time and resources by allowing easy 'pulling' of elective cases straight from the Trust's RIS, instead of your staff having to send.

RIS-RIS INTEGRATION

TMC has RIS-RIS integration with major RIS vendors, providing greater efficiency and security.
